

FOR IMMEDIATE RELEASE

Introducing United for the People of Ukraine (U4TPOU): A Non-Profit on a Mission to Bring Distance Learning to Ukrainian Children Impacted by War.

Marietta, GA – United for the People of Ukraine (U4TPOU), a newly-founded non-profit organization, proudly announces its establishment in 2023, with an unwavering commitment to bring distance learning to the children of Ukraine. In these challenging times of war, U4TPOU has emerged with a dual mission: to provide Ukrainian children with access to remote education and to equip Ukrainian hospitals with vital medical resources to save lives.

U4TPOU's primary mission revolves around bridging the educational gap faced by Ukrainian children in regions affected by the ongoing war. The destruction of physical schools has left countless young minds without access to learning opportunities. Recognizing the transformative power of education, U4TPOU has embarked on a mission to collect, ship, and distribute essential computer hardware, tablets, and cellular phones across Ukraine. By doing so, we aim to ensure that every Ukrainian child has the means to continue their education, regardless of the circumstances.

Furthermore, U4TPOU's secondary mission addresses the urgent healthcare needs of Ukraine. We are dedicated to providing Ukrainian hospitals with the essential medical equipment, machinery, and servers required for life-saving diagnostics, medical procedures, and seamless business operations. Through these efforts, we aspire to bolster the healthcare infrastructure and ultimately save lives in a time of great need.

Key highlights of United for the People of Ukraine (U4TPOU):

Empowering Ukrainian Education: U4TPOU seeks to empower Ukrainian children by delivering donated hardware such as laptops, cellular phones, and tablets directly into the hands of those affected by the war. Our commitment to education extends beyond words; it's a tangible, life-changing action.

Supporting Ukrainian Healthcare: U4TPOU is dedicated to strengthening Ukraine's healthcare system by providing essential medical equipment, machinery, and servers to hospitals. We believe that access to life-saving care during times of war is a fundamental right that should never be compromised.

Partnerships for Impact: U4TPOU collaborates directly with Ukrainian non-profit organizations and a network of IT specialists and logistics coordinators to ensure the efficient delivery of donations. Our partnerships are the backbone of our success. We have partnered with organizations that can fix, repair or build needed hardware from donated equipment or parts, as well as organizations that specialize in delivery of shipments to the war-impacted areas.

The list of our established partners includes:

Kharkiv with You

Kharkiv SOS

IT4Life

We continue to build additional partnerships, and are actively working on contracting with several other organizations.

U4TPOU extends an open invitation to organizations, individuals, and philanthropists in the United States and around the world to join hands with us in this noble endeavor. We will collect any used, retired, or broken hardware, including laptops, tablets, cell phones, servers and medical equipment. Together, we can make a difference in the lives of Ukrainian children and contribute to the betterment of their future.
